NEEDY CONNECT

Needy Connect is an online Job Portal. It provides facility to the Job Seeker to search for various jobs as per his qualification. Here Job Seeker can register himself on the web portal and create his profile along with his educational information. Job Seeker can search various jobs and apply for the Job.

This Portal is also designed for the various employer who required to recruit employees in their organization. Employer can register himself on the web portal and then he can upload information of various job vacancies in their organization. Employer can view the applications of Job Seeker and send call latter to the job seekers.

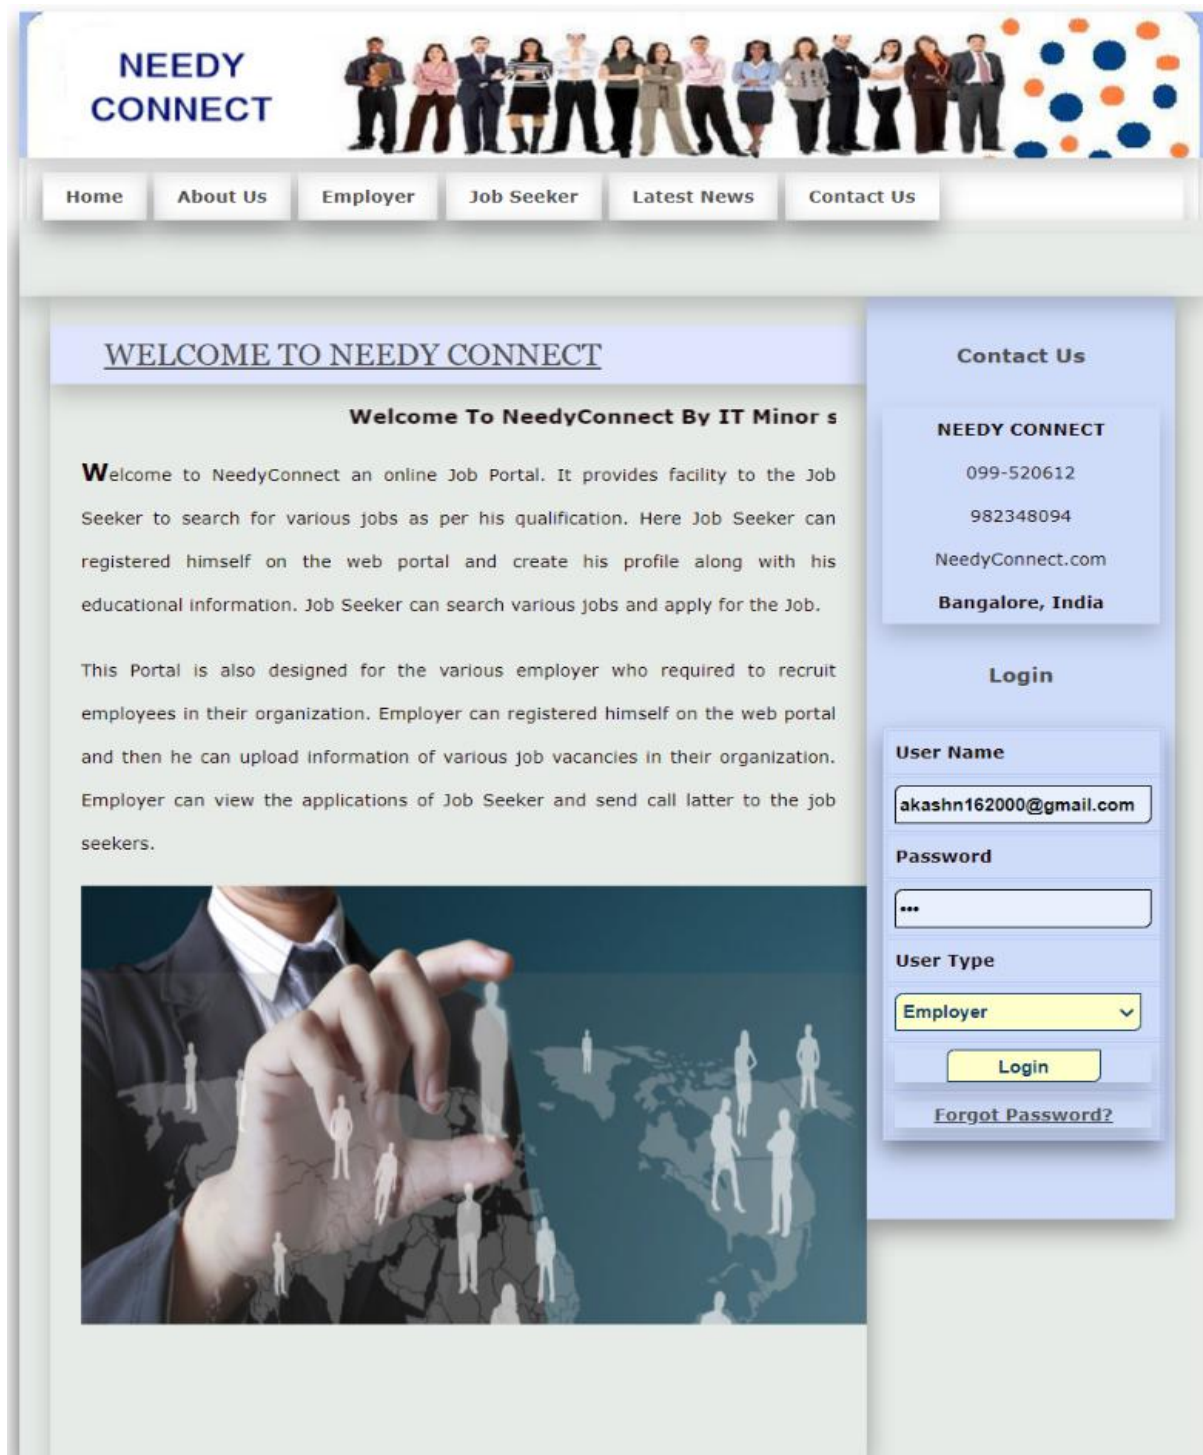

Tools used for designing and developing Needy Connect :

1. HTML
2. CSS
3. JavaScript
4. Php
5. Bootstrap
6. MySQL
7. Xampp Server
8. phpMyAdmin for MySQL database management

This website has various modules :

1 . HOME PAGE :

The home page gives access to various modules like About the company, Employer Section, Job Seeker Section, Latest News, Contact Information and Login for the Users.

2 . ABOUT US :

This module provides details about the website and the company.

The screenshot displays the NeedyConnect website interface. At the top, there is a header with the "NEEDY CONNECT" logo on the left, a group of diverse people in the center, and a pattern of blue and orange dots on the right. Below the header is a navigation bar with buttons for "Home", "About Us", "Employer", "Job Seeker", "Latest News", and "Contact Us". The main content area is divided into two columns. The left column, titled "About Us", contains two paragraphs of text. The right column, titled "Contact Us", lists the company's name, phone numbers, website, and location. Below the contact information is a "Login" section with input fields for "User Name" and "Password", a "User Type" dropdown menu set to "Employer", a "Login" button, and a "Forgot Password?" link. The footer at the bottom left shows the "NeedyConnect" logo.
